## MINING NOTES.

The mineral rights of 142 acres of land has been sold by Chas. Elliott, of Providence, to the St. Bernard Mining Company.

A tract of 23,000 acres of coal land in Monroe county, Ohio, extending from Clarington on the river 10 miles back, optioned by parties of Wheeling, W. Va., has been sold to Pittsburg and Uniontown (Penn.) capitalists, the purchase price being very close to a million dollars. The sale means the opening of big mines along the river front, the object of which will be to compete with the Pittsburg Coal Combine for the river trade.

Lige Robinson, of Barnsley, was in the city Saturday.

The St. Bernard Mining Company have purchased several acres of land adjoining their Shamrock property and will enlarge the lake they own near the mines at Providence.

Moscow Haley, of the engineering force, was the victim of a painful accident at the power house near No. 9 mine Monday. He and a fellow workman were engaged in wrapping fiber around an electric wire when a circuit was made, burning him about the eyes. He will be compelled to wear colored glasses for several days.

Lawson Miles has been transferred from No. 11 to the No. 9 mine.

A slight wreck occurred at No. 11 mine Saturday.

A. J. Doss, of Central City, has been appointed state mine inspector by Governor Beckham. The general assembly, at its recent regular session, passed an act creating places for two assistants, who will assist State Mine Inspector C. I. Norwood. This is the first appointment announced under the new law. Mr. Doss is a practical miner, having had ten years' experience, and was strongly recommended for the position.

C. A. Morton, administrator of the estate of Floyd Deberry, who was killed on June 15, 1905, by falling slate in a room of the Nortonville Coal company's mine, has filed a suit for damages. The amount asked for in the suit is \$10,000, and Gibson, Hall and Kincheloe represent the plaintiff.

Wm. Skeen, of Empire, is visiting friends and relatives here this week.

The first coal company to commence operation in the anthracite region is the Lehigh Coal and Navigation Company, whose colliery and washery at Tamaqua, Pa., resumed work Monday. This is the first attempt to start operations since the suspension of work in this field. The men are working behind barracks, which are heavily guarded.

## AMONG THE RUINS OF SAN FRANCISCO

## TEMPORARY BUSINESS STRUCTURES ARE GOING UP.

## PREPARING FOR NEW ORDER

Resumption of Banking Business, Through the Agency of the Branch Mint, Settling the Wheels in Motion.

San Francisco, May 2.—Among the ruins of the once great business houses, temporary structures are arising in mushroom fashion, and the rivulets of commerce are beginning to move with increasing volume into broader channels.

## The Smokeless Chimneys.

The full force of the disaster that has overtaken commercial San Francisco is best appreciated by taking a trip from the Oakland side of the bay to this city. Along the entire sweep of the city front not a single puff of smoke is coming from the chimneys which today stand as gruesome monuments to the awful work of two weeks ago. In the heart of the city, on top of the great Merchants' exchange steel structure, the ascending black smoke told that life had been renewed within that once busy hive of industry. This was the one exception in all of the vast downtown district. Far to the south along the water front could be seen the plants of the factories in the Potrero district in full operation, a cheering omen for the remainder of the city.

## Much Progress Being Made.

In the burned territory much progress has been made in the way of preparation for the new order of things. Scores of little wooden buildings can be seen in process of erection on all sides, and from the southern water front innumerable teams are hauling lumber for the temporary homes of merchants and retailers.

Further progress has been made in the extension of the street car service, and it is hoped soon to relieve the great congestion in travel to and from the Oakland ferries and in the suburbs.

## Resumption of Banking Business.

The next important development of Tuesday was the resumption of banking business through the agency of the branch mint. By means of certified checks depositors were enabled to secure small sums of money, and business men were placed in a position to attend to some pressing wants. The distribution of money was broad in a general sense, but limited to individuals. With the possession of money many little improvements are looked for in the next few days among the small dealers and the medium grade of merchants.

According to the figures of the general committee, the grand total of food supplies received here since the day of the earthquake is 6,797 tons.

## Money For Rehabilitation.

San Francisco, Cal., May 2.—The first definite proposition for furnishing money on a large scale to San Francisco for the purpose of rebuilding some of the burned sections was made public Tuesday, when it was announced that a syndicate of New York capitalists had agreed to advance \$100,000,000. The news came in a telegram received by W. F. Herrin, chief counsel of the Southern Pacific, from United States Senator Newlands, of Nevada, who had a large interest in the burned Palace hotel. Senator Newlands stated that he had submitted the plan to New York financiers, and that they had virtually consented to supply the money on a bond and mortgage basis. The names of the New York people are not given. The offer is under discussion by the local finance committee.

## Will Accept Outside Aid.

It was decided that the citizens' committee would accept all offers of aid from foreign countries. This decision was reached when a communication was received through Japanese official sources asking if the citizens would receive the contribution of 200,000 yen made by the emperor of Japan and declined by the United States government. The finance committee held that San

Francisco being essentially a cosmopolitan city, it was obliged to care for many destitute foreigners and that it would be proper to accept all outside tenders of assistance.

**The National Appropriation.**  
James D. Phelan, chairman of the finance committee, received a telegram from Secretary of War Taft notifying him that only \$780,000 remained out of the \$2,500,000 appropriated by congress, and that this sum would be expended for supplies, etc. The telegram was read at the session of the finance committee and filed without discussion.

## Finance Committee Receipts.

At a meeting of the finance committee of the general relief committee the total receipts of the committee were reported to be \$791,231. It was decided to have outstanding eastern contributions collected by one or two of the large banks of New York city and transmitted to the mint in this city.

## Hospitals Without Support.

Chairman Phelan stated that 19 hospitals were absolutely without support as a result of the great disaster and to support these institutions the committee would soon be called upon to expend about a thousand dollars a day.

## Problem For the Money Broker.

San Francisco, May 2.—The money brokers are confronted with a serious problem, especially those who, month after month, have been in the habit of advancing the salaries of municipal employees. Tuesday was pay day in many of the departments, the day on which the brokers have been in the habit of presenting their demands and collecting the two, three or five per cent. commission which they exact.

Between the fire and the earthquake many of the assignments have been destroyed, and Auditor Horton is besieged by anxious brokers demanding that he accept a substitute for the missing powers of attorney. Horton refuses to give any satisfaction.

## Warrants Where They Belong.

"The warrants will be given to the persons to whom they belong, unless proper documents showing a bona fide assignment is filed," he declared.

Sixty per cent. of the city's servants drew their salaries through brokers. The profit in the business has become so great that the privilege of negotiating such loans has become a political plum. To secure it some brokers have advanced large sums for campaign purposes, with the understanding that the business will be directed to them.

## Freaks of the Earthquake.

Stockton, Cal., May 2.—It has been discovered that in the vicinity of Woodbridge the Mokelumne river has fallen 12 feet, the bed of the river having dropped from the effects of the recent earthquake. As the waterway has overflowed frequently, farmers along the stream are highly pleased with the change, since it can carry far more water than heretofore and not endanger their lands.

Another incident of the earthquake is the drying up of Tracy lake in the northwestern part of San Joaquin county.

## A New Island Formed.

San Francisco, May 2.—Prof. E. Knowlton has just returned from a 30-mile walk to Bolinas bay, where he says there is evidence the recent earthquake had its center. Few, if any, houses in that vicinity escaped damage, but no fatalities occurred. There is now an island in Bolinas bay, where were formerly muddy shoals, and on either side of the island the water is ten feet deep.

## A Subterranean Maze.

Now that underground Chinatown is exposed, the police, who thought that they had a good idea of the ramifications there, are astonished at the revelations. No family of rodents ever tunneled more persistently for ingenuity than did the denizens of this quarter. So complete was the chain of subways that every part of Chinatown has its underground exit. The main arteries have been traced as far as Kearney street on the south and Powell street on the north, a distance of three blocks. The tunnels extend under the streets. This subterranean maze explains the mysterious escapes of Chinese criminals and the failure of many a raid upon fantan games or slave dens.

## Famous Paintings Saved.

San Francisco, May 2.—The picture, "The Man with the Hoe," the famous painting by Millet, which was reported to have been burned with others in the Crocker mansion on Nob Hill, was rescued from the flames. Other famous paintings in the same collection which were carried to safety are, "The Oaks," by Rosseau, and "Dance of the Nymphs."

## The Death List at Santa Rosa.

Santa Rosa, Cal., May 2.—The list of dead and missing has run up to a total of 77. The last body found was that of Mrs. Augusta S. Rodgers, a dressmaker. She was killed in the collapse of the Novelty theater building and her body was partly incinerated.

## Salvation Army Benefit.

New York, May 2.—The Salvation army has arranged the biggest meeting it has ever given outside of London for Sunday evening, May 19, at the Hippodrome, for the benefit of the San Francisco sufferers.

## Big Business Consolidation.

St. Louis, May 2.—The Scruggs, Vandervort & Barney Dry Goods Co. have consolidated with the Simmons company, and will occupy the first eight floors of the Century Annex and a large part of the Century building, which together, when erected, will cover the entire block bounded by Ninth, Tenth, Olive and Locust streets. The capitalization is placed at \$5,250,000.

## To Succeed Count Witte.

London, May 2.—A dispatch to the Exchange Telegraph Co. from St. Petersburg says it is reported that M. Gorenkin, former minister of the interior, will succeed Count Witte as premier.

## The Sticker is the Winner

Hammar Condensed Paint leads all to-day, because it is made to stick. It is guaranteed to stick for five years. You can count on most paints for only three years. The great Hammar Paint House of St. Louis guarantee their paint to stick for five years; your money back if it don't and this is not talk either. Come in some day and we will show you how this paint is backed by a guarantee of a half million dollars in cash and a reputation of over a third of a century for square deals. We will also show you how you can save 25% on your next paint bill. Remember, please, that there is only one Hammar Paint and that we are the only dealers in this place who have the authority to sell and guarantee this paint.

Sold by John X. Taylor.

## CHEAPER FARM LAND.

## SOUTHWEST OFFERS BEST OPPORTUNITIES FOR SECURING HOMES.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying land in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich alluvial delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas, Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 4 to 6 tons of alfalfa, 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums, grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

This is a fine stock country. No long winter feeding. Free range, pure water, mild climate. A healthy, growing country, with a great future. Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month. Address,

R. T. G. MATTHEWS, T. P. A.,  
Louisville, Ky.  
or H. C. TOWNSEND, G. P. & T. A.,  
St. Louis, Mo.

L. H. & S. L. R. R.  
"HENDERSON ROUTE"

On and after April 1, 1906, all trains of this Company will arrive at and depart from 10th St. Station, Tenth and Broadway, instead of from Seventh Street Depot (formerly Union Depot), Louisville, Ky.

Number Subscribers March 1, 1906	146,827
Number added during month	5,528
Number discontinued	2,405
Net Increase	3,123
Total subscribers April 2, 1906	149,950

## The Sins of the Parent FREQUENTLY FALL UPON THE CHILDREN

Especially terrible does it seem that children should be born into the world—as they frequently are—having in their little innocent bodies the germs of Specific Blood Poison, or, more frequently, Scrofula, which is, as a rule, the result of Specific Blood Poison in some ancestor.

It would be an outlook almost too intolerable to contemplate if such scourges as scrofula and other forms of blood poisoning were incurable. Yet for long centuries these diseases have baffled the most skillful medical science.

Men and women in the past have resorted to cures for these diseases which were almost as obnoxious and dangerous as the disease itself.

The taking into the system of mercury and other mineral drugs cannot be too strenuously condemned and avoided in such cases.

That a cure, absolute and sure, can be effected is evidenced by the following letter, telling of the result of taking

## FOERG'S REMEDY

Ooonita, Va., Aug. 18th., 1903

To Whom It May Concern:—  
We have two little twin girls that were badly afflicted with Scrofula. After trying three of the best doctors we could employ they continued to get worse all the while. I was advised by a friend to try Foerg's Remedy, so I procured one bottle, and it has cured them sound and well. This was four years ago, and no sign of return, so I cannot say too much for this medicine, for I think it the best blood medicine in the world.

E. C. COURTNEY

This is a true copy of statement sent us by Mr. Courtney, and is on file in our office.

FOERG REMEDY CO.

Don't delay, but go to your druggist and get a bottle. If your druggist does not handle this remedy send us \$1.00 for one bottle or \$5.00 for six bottles, with our absolute guarantee or money refunded by druggist or this company in full. All packages sent in plain wrappers. All correspondence strictly confidential.

For Sale Locally By

ST. BERNARD MINING CO. and JOHN X. TAYLOR.

SOUTHWEST  
The Land of BIG CROPS and PROSPERITY

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profit?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

## See the Southwest at Small Cost

A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the 1st and 3rd Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop overs will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.

L. C. BARRY, T. P. A., Cotton Belt Route, 52 Todd Building, Louisville, Ky.
